## Web Design

Your web site deserves our award-winning photography, graphic designers, musicians, writers, and technical experts helping you create a global presence to sell your products and services.

Our standard software engineering fee is \$300 / hour. We offer special low rates for web designs for small business clients, startups, midsize corporations with revenue below \$3 million per annum. We offer premium software engineering for corporations with revenue in excess of \$3 million per annum.

Prebuilt packages begin at \$299 flat fee for a wordpress theme with one hour training in wordpress blog posting for one person.

An average small business client will pay \$588 per year\* for Silver web development, hosting, and maintenance.

Commercial web sites using Gold and Platinum service spend \$449 to \$849 / month.\*

We can upload and maintain your web design for you or deliver your web design to you on CD ROM.

The most affordable solutions include the following [web design service packages](#):

**Titanium** - (for Platinum clients only) \$130 / hour discounted fee for custom design add ons including but not necessarily limited to:

- Contact and data collection forms,
- online event sign up,
- online ticket distribution,
- online meetings,
- live chat room,
- opt-in newsletter service,
- search engine optimization (SEO),
- social media rain (automatically update postings to your social network sites).

**Platinum** - \$849 / month. Get all the service available to Gold clients plus access to our Titanium service (a discounted cost for add-on premium software engineering). Get all the bells and whistles you can dream up at a sweet discount (\$130 per hour).

**Gold** - \$449 / month, minimum required to get started selling directly to consumers on your own web site. Choose from high tech solutions like registered user logins, daily maintenance updates, social media rain, and ecommerce.

**Silver** - \$49 / month or \$588 / year for very small local businesses or frugal mid-size businesses that need a basic web presence, product display, and contact point.

Details available with a phone call or email.

Custom web designs services are \$150 / hour. The packages are the best deals for businesses with revenues of less than \$1 million per annum.

Price does not include use of dynamic database elements nor domain pointing service nor hosting nor internet service provider (ISP) nor other infrastructure and third-party software costs, if any. Domain hosting and third-party software are available at actual cost through Skybridge for all web design clients under contract. You must provide your own internet ISP.

Custom designs and coding are available at affordable rates.

Launch the web site you deserve!

We can upload and maintain your web design for you or deliver your web design to you on CD ROM.
